SKILLS

- UI/UX
- Visual Design
- Full Stack Developer
- Network Engineer
- Data Analyst
- AI/ML

WORK EXPERIENCE

UI/UX, Grapghics Design 2026

Mald Graphics Company Ltd

My training/internship at Mald Graphics Ltd in Kampala, Uganda, gave me a great opportunity to work hands, on with UI/UX and graphic design. I was making user interfaces and user experience layouts, working on visual graphics and branding materials, doing digital illustrations, and carrying out design projects with the help of industry, standard tools.

Student 2024

Makerere University Bootstrap

During my attendance in the Bootstrap Makerere program at Makerere University in Kampala, Uganda, I received training in Machine Learning and Artificial Intelligence. I was taught various topics in Artificial Intelligence and Machine Learning, I also learned the use of algorithms, data analysis, model development, neural networks, and applications of AI in the real world.

Trainee 2023-2024

Stratcom Communication & IT Solutions

My internship at Stratcom Communication and IT Solutions in Kampala, Uganda gave me the opportunity to learn about networking practically. I was taught how to set up routers, Wi, Fi systems, and office networks. I also gained knowledge in troubleshooting, system administration, and basic IT support for computers and hardware.

Internee 2023

PoWell Pay Limited

I completed an internship at PoWell Limited, where I worked on developing mobile and web applications. I assisted with front-end and back-end tasks, implemented features, and tested applications for smooth user experience. The internship strengthened my technical skills, teamwork, and understanding of the full software development lifecycle.
